

Official Volleyclub

Open Tournament Tour

Rule Set 2023

By players for organisers

Applicable to all competitions from 1st November 2022

1. Types of Tournaments

- 1.1. **Volleyclub tournaments** may be held anywhere by anybody for anyone. They are supposed to be fun and inclusive events for players, organisers, and audiences alike. By presenting Volleyclub in an organised manner tournaments are uniquely positioned to combine the relaxed and happy vibes of sunny beaches with the athleticism and creativity of Volleyclub.
- 1.2. **Official Open Tournaments**, alternatively, must follow the rules of both the current **Official Volleyclub Rule Set** as well as the current **Official Volleyclub Open Tournament Tour Rule Set**.

2. The Official Volleyclub Open Tournament Tour

- 2.1. The **Official Volleyclub Open Tournament Tour (OVC OTT)** organises and records the results of all **Official Open Tournaments** and provides a structured competitive experience for participating teams and players.
 - 2.1.1. In Official Open Tournaments teams and players may earn **ranking points** based on their placements. These ranking points are being recorded and displayed on the official websites as seen in section 5. Open Tournament Rankings.
- 2.2. The OVC OTT is conducted in **seasons**. Each season starts on 1st November and ends on 31st October the following year. Each season is named after the year it ends in.
- 2.3. Organisers can **enter** their tournament in the OVC OTT by applying and providing the following **documentation** to the official websites or the OVC OTT organisers:
 - 2.3.1. A copy or photo of the **sign-in sheet** signed by the tournament organiser. This document must provide the full name of every player, their team name, and their participation choice, accepting or declining the OVC OTT recording their name and results.
 - 2.3.2. A copy or photo of the **tournament results** signed by the tournament organiser. This includes all stages of the tournament as well as, preferably, on which court the matches were played.
 - 2.3.3. A photo or video of the **participants and courts**. It is recommended to show all participants and courts, at a minimum, however, the photo or video must show all, if any, sand courts and the winners of the tournament. Should the winners not participate in the OVC OTT, the photo or video must show at least the two highest placed participating teams or players.
- 2.4. The OVC OTT organisers remain the right to **deny applications** if the documentation is incomplete or fraudulent or if any requirements specified in section 4. Official Open Tournaments are not met.

3. The Official Volleyclub Cup

- 3.1. The **Official Volleyclub Cup** is an invitational tournament and, therefore, not part of the OVC OTT itself. Instead, it uses the **OTT Seasonal Ranking** to determine its invitees.
- 3.2. The **OVC OTT organisers** are responsible for organising the tournament and sending out the invites.
- 3.3. **Invites** go to the **three highest ranked teams** and three teams consisting of the **six highest ranked individual players** not already invited as part of a team. The ranking is determined by the **OTT Seasonal Ranking** at the end of the season on **31st October**.
 - 3.3.1. Should a team be **unavailable**, the next highest ranked team (down to the 6th highest ranked team) is invited. Should only one player of an invited team be unavailable, the remaining player may either team up with one of the six invited individual players, in which case the next highest ranked individual player must be invited additionally, or they may invite one of the six highest ranked individual players not already invited either as part of a team or individually. Similarly, should an individual player be unavailable, the next highest ranked individual player is invited (down to the 18^h highest ranked player).
Should there not be enough invitees to form six teams, the tournament may be played with the **two highest ranked teams** and the **four highest ranked individual players** not already invited as part of a team, instead. Otherwise, the tournament must be cancelled.
- 3.4. The Official Volleyclub Cup must take place **within six weeks of the end of the past season** to most accurately display the invitees form and level of play during that season. Should the invitees be unable to agree to a date within this time frame, the tournament has to be cancelled.
- 3.5. The Official Volleyclub Cup consists of a **group stage**, a following **play-off stage**, and, lastly, a **finals stage**.
 - 3.5.1. During **group stage**, teams play best-of-3-sets matches to 9 points, leading by at least two points, in two randomly seeded **single-round-robin** groups of 3 teams each. The placement in this group decides the draw for the following stages – first place teams advancing directly to the finals stage and all other teams advancing to the play-off stage.
 - 3.5.2. The **play-off stage** is played as a **single knock-out elimination stage**. The teams placing second in group stage play the teams placing third of the respective other group. Teams play best-of-5-sets matches to 9 points, leading by at least two points.
 - 3.5.3. The **finals stage** is played as a modified **double knock-out elimination stage** with a single knock-out Grand Final. Teams play best-of-5-sets matches to 9 points, leading by at least two points.
 - 3.5.4. In case of a tournament with **four teams** only, teams play one **single-round-robin group**. The placement in this group decides the finals stage draw – first place playing fourth place and second place playing third place, respectively. A play-off stage is not played. Other than that, the stages are played as described above.
- 3.6. The winner of the Official Volleyclub Cup is awarded the **Volley Cup**. This trophy is handed out by the OVC OTT organisers.

4. Official Open Tournaments

- 4.1. Official Open Tournaments must be available for entry by anyone. They – or the events at which they are taking place – are, therefore, required to have **open registrations** available at least **seven days** before the start of the tournament.
- 4.2. **Official Volleyclub Tournaments** may belong to any of six **tournament categories**, namely 1 to 6 Star Tournaments. The tournament category is decided by the number of teams in the first group stage and defines the required **number of groups**, **tournament seeds**, and potential **wildcards** as seen below:

Category	Min. Teams	Max. Teams	Groups	Seeds	Wildcards
6 Star	36	44	12	12	4
5 Star	24	32	8	12	4
4 Star	18	22	6	6	2
3 Star	12	16	4	6	2
2 Star	9	11	3	3	1
1 Star	6	8	2	3	1

- 4.2.1. Should the number of signed-in teams be in-between two categories the tournament is considered to be of the lower category. Tournament organisers may either increase the limit of teams per group to **5 teams per group** played in a modified GSL-group system, beginning with the last group, or hold a **play-in stage**. In the play-in stage, the unseeded teams having signed in last play each other in single knock-out elimination matches until an eligible number of teams is reached. At a minimum, these must be best-of-1-set matches to 9 points, leading by at least two points.
- 4.2.2. **Tournament seeding** is based on the rankings described in section 5. Open Tournament Rankings. For seeding purposes, a team's **OTT Season Team Ranking** points or the combined **OTT Season Player Ranking** points – whichever is higher – are used. The higher a participating team's points in comparison to all other participating teams the higher their tournament seed. Once the admitted number of seeds is reached, all other teams are considered **unseeded**.
- 4.3. Tournament organisers are allowed to grant a **wildcard seed** to a number of teams depending on the tournament category as described in section 4.2.. A wildcard seed allows for any tournament seed. If the wildcard team was not seeded before, it replaces the team that would have been seeded the lowest under rule 4.2.2..
- Tournament organisers may, however, only offer a wildcard seed to supersede another seeded team if the receiving team has or its players combined have a **higher placement** in the OTT Historical Ranking, in last season's OTT Season Ranking, or if the team has higher placements in at least 2 OVC Tournaments, meaning Open Tournaments and/or the OVC Cup, of the current and/or last season than the team it replaces.
- 4.3.1. Should the number of required tournament seeds not be reached, wildcards may also be offered to teams in order to meet the **seed requirement**. In this case only, wildcards may be offered based solely on the organiser's judgement.
- If the seed requirement cannot be reached this way or if tournament organisers decide against this method, all teams have to be drawn randomly and all groups must be considered unseeded. This follows the **OVC OTT Unseeded Documentation** on the official website.

4. Official Open Tournaments

- 4.4. Official Open Tournaments must consist of a minimum of a **group stage** and a following **finals stage**.
- 4.5. The **group stage** must consist of at least two groups and must be played in a **single-round-robin** system for groups of 3 teams or in a **GSL-group** system for groups of 4 teams. Seeded teams are placed in seeded groups first before all unseeded teams are drawn randomly into their groups. This procedure follows the **OVC OTT Documentation** on the official website.
- 4.5.1. During the **group stage**, teams must play best-of-3-sets matches to 7 or 9 points, leading by at least two points.
- 4.6. **Advancing** from groups, teams either enter the finals stage directly or play in the **play-off stage** according to the corresponding **OVC OTT Documentation**.
- 4.6.1. During the **play-off stage**, teams must play best-of-3-sets matches to 7 or 9 points, leading by at least two points.
- 4.7. The **finals stage** must be played as a **single knock-out elimination stage** according to the corresponding **OVC OTT Documentation** and determine all placements for which ranking points are awarded as seen in section 5. Open Tournament Rankings.
- 4.7.1. During the **finals stage**, teams must play best-of-5-sets to 9 points, leading by at least two points.
- 4.8. Event organisers may offer a **Beginners Open Tournament** or **Beginners Open Matches** in addition to an Official Open Tournament. They require documentation following rule 2.3..
- 4.8.1. **Beginners Open Tournaments** follow the **OVC OTT Unseeded Documentation**. Participating teams are not awarded ranking points but do count toward the number of teams in the first group stage of the Official Open Tournament and, thus, toward its tournament category as described in rule 4.2.. If they (or their individual players) participate in both tournaments, they only count as participants of the Open Tournament.
- 4.8.2. For **Beginners Open Matches**, individual players are matched with partners in any way the event organisers choose and play a supervised set before new teams are matched up. The player (or players) winning the most sets at the end of the allotted time frame wins the event. Players are not awarded ranking points but should the number of participants be at least half the maximum team number (rounded up) of the tournament category of the Open Tournament as described in rule 4.2., the tournament category of the Open Tournament may be raised by one. If players participate in both the Open Matches as well as the Open Tournament, they only count as participants of the Open Tournament.

5. Open Tournament Rankings

- 5.1. The results of Official Open Tournaments are recorded and displayed in **Open Tournament Rankings**. These rankings include the **OTT Season Ranking**, the **OTT Permanent Ranking**, and the **OTT Historical Ranking**.
- 5.2. In Official Open Tournaments, teams and players are awarded **ranking points** that influence their standing in these rankings.
- 5.3. A team or individual player can choose not to be recorded and still participate in Official Open Tournaments. They must, however, forfeit all their corresponding ranking points. Their placements are marked as **redacted entries**.
- 5.4. **Ranking points** are awarded based on tournament category and placement of the team as seen below. Teams reaching a placement for which no points are specified do not earn any points and no placement is recorded.

Category	1 st Place	2 nd Place	3 rd Place	4 th Place	QF	R16
6 Star	790	530	450	360	240	160
5 Star	560	380	320	250	170	110
4 Star	440	290	250	190	130	/
3 Star	310	210	180	140	90	/
2 Star	240	160	140	110	/	/
1 Star	170	110	100	70	/	/

- 5.5. **Bonus ranking points** are awarded for placements in tournaments played **on sand** as seen below. A tournament is considered as having been played on sand and, thus, eligible for bonus points if at least all matches determining fourth place and above (i.e. SF stage and higher) are played on sand.

Category	1 st Place	2 nd Place	3 rd Place	4 th Place	QF	R16
6 Star	950	640	540	430	290	190
5 Star	670	450	380	300	200	130
4 Star	530	360	300	240	160	/
3 Star	370	250	210	170	110	/
2 Star	290	190	160	130	/	/
1 Star	200	130	110	90	/	/

- 5.6. **Individual players** earn **half the ranking points of their team**. These points are recorded and displayed in **Player Rankings** as opposed to **Team Rankings**.
- 5.7. For **Unseeded Open Tournaments** as seen in section 4.3.1., ranking points are awarded as seen above for 1 Star and 2 Star tournaments. 3 Star tournaments and above, however, are considered 2 Star tournaments concerning ranking points no matter the actual amount of participating teams, groups and tournament stages. Their tournament category cannot be raised in any way.
